HIGH PERFORMANCE ADHESIVE PUTTIES

www.pratleyadhesives.com

Cat. no. 80211
(Dispenser of 20 Packs)

Cat. no. 84135
(Dispenser of 20 Packs)

Cat. no. 84136
(Dispenser of 20 Packs)

PRATLEY PUTTY ORIGINAL

This product was the first of its kind in the world and was developed in the Pratley laboratory. It is the only South African manufactured product on the moon.

This epoxy based putty is hand mouldable and sets very hard even under water. Ideal for under water use. One novel use has been to repair sunken ships prior to re-floating them.

Adheres to metals, cement, concrete, stone, glass, slate, wood and most rigid materials. Withstands most chemicals, mild alkalines, oil and petrol.

PRATLEY QUICKSET PUTTY

Pratley Quickset Putty is an exceptionally high strength, hand mouldable, putty-like adhesive.

This product is very similar to Pratley Putty Standard Setting (original) except it sets very much faster (sets in \pm 20-35 min) - it will set under water, however it is not as easy to apply under water.

PRATLEY STEEL PUTTY

This epoxy based putty cures at a medium speed. It is a hand mouldable putty which sets like steel and matches the colour of steel.

It is exceptionally workable yet when set it is incredibly strong like the other Pratley Putties and can be sawn, filed, machined, sanded and painted.

Adheres to most rigid materials. Withstands most chemicals, mild alkalines, oil and petrol.

SOME SUGGESTED USES:

- Repair under water leaks.
- Repair cracked concrete swimming pools.
- Mend broken roof tiles and cement garden furniture.
- Emergency repairs to metal works.
- Seal metal water tanks and gutters.
- Seal metal petrol tanks and fuel lines.
- Repair leaking Welsh plugs on engines.
- Repair broken vehicle engine sumps and radiators.
- Mend chipped and broken wash-basins and toilets.
- Hand mould almost any shape, e.g. gear knobs, pot handles, electrically insulating screwdriver handles etc.

PACKAGING

Dispensers of 20 Packs
Each pack 125g (hanging pack)

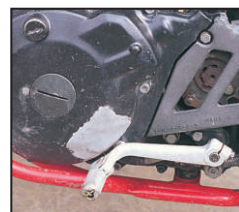

SOME SUGGESTED USES:

- Repair motorcycle engine case.
- Rebuild and machine broken castings.
- Repair metal radiator header tank.
- Embed a swivel and make fishing sinkers.

PACKAGING

Dispensers of 20 Packs
Each pack 125g (hanging pack)

HIGH PERFORMANCE ADHESIVES

Cat. no. 85139
(Dispenser of 20 Packs)

Cat. no. 86143
(Dispenser of 20 Packs)

PRATLEY QUICKSET WHITE

Best for heavy duty applications where surfaces are somewhat rough.

After mixing, it is thixotropic and has the consistency of soft butter. It can fill large gaps where repair requires both high adhesive strength and a filler.

Can be filed, sawn machined and sanded.

Adheres to most rigid materials, such as metal, wood, ceramics, stone, concrete, glass and fibre glass.

PRATLEY QUICKSET CLEAR

Very versatile adhesive and is the kind of product which every family should keep in the home.

Can be used in applications where the adhesive should not be visible, e.g., on ornaments and household repairs.

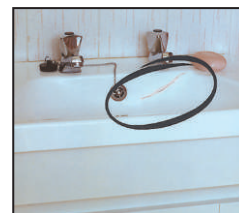

Adheres to most rigid materials, such as ceramics, stone, concrete, glass, fibre glass and metals.

SOME SUGGESTED USES:

- Repair chipped ceramic basin or toilet.
- Affix ceramic tiles or ornaments to wall.
- Fix holed bulldozer sump by smearing with white glue and affixing a steel plate underneath.
- Stick masonry work together.
- Repair electrical insulators.

PACKAGING

Dispensers of 20 Packs
Each pack contains 2 x 20ml tubes (40ml hanging pack).

SOME SUGGESTED USES:

- Repair broken ornaments.
- Repair glass items.
- Stick model radio control aircraft parts.
- Stick semi-precious stones to jewellery mountings.
- Repair broken furniture.
- Affix metal badge to car body.

PACKAGING

Dispensers of 20 Packs
Each pack contains 2 x 20ml tubes (40ml hanging pack).

PRATLEY STEEL QUICKSET

A quick setting, ultra strong metal filler and bonder. It matches the colour of most ferrous metals. It can therefore be used on repairs where colour is important.

Formulated to set hard and rigid, to facilitate filing, sawing, machining and sanding within 2 hours.

Adheres to most rigid materials such as, metals, cement, concrete, china, stoneware, glass, slate, tiles, ceramics and wood.

PRATLEY WONDAFIX

A patented tough and flexible yet strong adhesive developed in our laboratory. The picture of a suspended 13 tonne Bulldozer shows an actual test. It has been hanging for over 2 decades!

Wondafix has outstanding adhesive properties coupled with flexibility, this makes it a truly unique bonding and shock resistant repair system. It cures to a tough rubber-like material.

Tough, strong, abrasion and shock resistant. Good coefficient of friction.

Adheres to leather, fabrics, canvas, plastics, nylon, rubber, metals, china, stone, pottery and ceramics, wood, bakelite, fibre glass and more.

PACKAGING

Dispensers of 20 Packs. Each pack contains 2 x tubes (30ml hanging pack).

PRATLEY WONDAFIX "CAR"

A tough and flexible high strength repair system.

This product is similar to Wondafix but being black in colour it can be used unobtrusively on a multitude of car repairs.

Adheres to leather, fabrics, upholstery, certain plastics, rubber hoses, metals and more.

PRATLEY 1-2-3

A toughened acrylic adhesive offering an easy **three step bonding** system which requires no mixing. It's as easy as 1-2-3.

1. Place a blob of resin on one surface.
 2. Dab some activator onto the other surface.
 3. Bring the surfaces together.
- It is excellent on aluminium and will join almost all well matched surfaces. It will even bond on mildly oily surfaces. It is suited to well matching surfaces only and has no gap filling capabilities.

Adheres to rigid plastics, metals, aluminium, ceramics, fibre glass, perspex, nylon, brass and very hard woods.

Note: Shelf life between 1 and 3 years, depending entirely upon storage temperature peaks.

PRATLEY EZEEBOND

A sophisticated ultra high performance 3rd generation, toughened acrylic adhesive. It is ideal for bonding reasonably well mating surfaces as **replacement for spot welds and rivets**.

It is also exceptional on most rigid plastics, fibre glass and aluminium. Can tolerate mildly oily surfaces, can tolerate mal-proportioning and unlike other acrylics it can tolerate minor gap filling. A true 21st century adhesive with rapid cure time.

Adheres to metal, aluminium, fibre glass, brass, rigid plastics and more.

SOME SUGGESTED USES:

- Filling blow-holes in metal castings.
- Repairing cracked castings.
- Making fillets or filling seams in metal parts.
- Bonding ceramics, slate, tiles etc., where the colour matches.
- Bonding metal parts.
- Repair hole in car sump.
- Repair motorcycle casing.

PACKAGING

Dispensers of 20 Packs. Each pack contains 2 x 20ml tubes (40ml hanging pack).

SOME SUGGESTED USES:

- Repair leather belts.
- Repair splice leather transmission belts.
- Patch tears or holes in canvas tents or deck chairs.
- Mend running shoes.
- Cast your own gaskets.
- Mould and cast new vibration mountings.
- Cast a new Wondafix tyre onto pallet trolley wheel and machine it perfectly round in a lathe after it has set.
- Make new abrasion resistant linings for wearing parts of rock handling machinery.
- Electrical insulating handles.
- Repair ornaments rigid and non-rigid.
- Stop ornaments and telephones from sliding around by applying to base.
- Cast your own flexible drives or friction drives.
- For extra strong repairs soak into bandage and wrap around broken joint.

SOME SUGGESTED USES:

- Repair scuffed hoses.
- Repair damaged rubber of car bumper.
- Repair cracked car dashboard.
- Repair car air vent pipes and vacuum hoses.
- Repair vinyl car seats and side panel trim.
- Fill cracked windshield rubber seals.
- Fill rubber mouldings and flashings on cars.

SOME SUGGESTED USES:

- Excellent on aluminium sheet.
- Refix tumble dryer or refrigerator handle.
- Bond metal parts.
- Bond stiffener ribs to sheet metal instead of spot welding or riveting.
- Bond fibre glass to metal.
- Mend ceramics.
- Mend broken rigid plastic toys.
- Excellent for bonding rear view mirror to windscreen of car.

PACKAGING

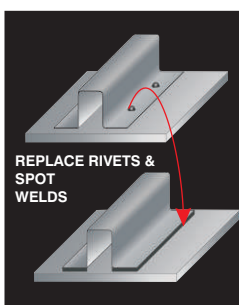

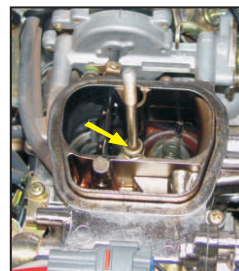

Dispensers of 20 Packs
Each pack contains a tube of resin and a bottle of activator.

SOME SUGGESTED USES:

- Bond sheet metal using bead/line bonds.
- Bond sheet aluminium.
- Attach top-hat stiffeners to sheet metal.
- Join fibreglass components on boat.
- Bond car bumpers and dash boards.
- Bond towel rail to tile.
- Bond model motors to mounting plates.
- Bond brass name plates to apparatus.

PACKAGING:

Dispensers of 20 x hanging packs. Each pack contains 2 tubes (Part A and Part B) 20ml total

HIGH PERFORMANCE ADHESIVES

www.pratleyadhesives.com

Cat. no. 98070
(Dispenser of 20 Packs)

PRATLEY SP001

- Exceptionally diesel, oil, battery acid, water and paraffin resistant.
 - Good all round chemical and acid resistance.
 - Resistant to prolonged immersion in water once cured.
- Adheres well to most rigid materials.**

PACKAGING

Dispenser of 20 Packs. Each pack contains 2 x 20ml tubes (40ml hanging pack).

SOME SUGGESTED USES:

- Repair items to be sub-merged in water.
- Repair items in contact with battery acid.
- Repair lead acid battery casings.
- Repair rigid parts of swimming pool plumbing.
- Apply a thin screed onto surface and render it water and acid resistant.
- Coat metal battery housings and prevent corrosion.

Cat. no. 98050
(Dispenser of 10 Packs)

PRATLEY UV BOND

CURE IN DIRECT SUNLIGHT! (OR WITH U.V. LIGHT)

SOME SUGGESTED USES:

- Trophies.
- Glass Ornaments.

PACKAGING

Dispensers of 10 Bubble Packs. Each containing a 3g bottle.

Glass Ornaments

PRATLEY WOOD GLUE

Specially formulated for ultra high performance on wood. It can however, also be used on paper, hard-board, carpets, most fabrics, corktiles and photographs. Excellent on thin bond gaps.

PACKAGING
Dispensers of 20 x 500ml bottles

Cat. no. 95003
(Dispenser of 20 Bottles)

Cat. no. 98020
(Dispenser of 10 Packs)

PRATLEY POWDA BOND

NOBODY SHOULD BE WITHOUT THIS PRODUCT!

Powda Bond is an instant repair system and gap filler which can be used either as a two part kit or single adhesive.

- Ultra fast curing adhesive.
- Can be painted, sanded filled.
- Repair most materials including most plastics.
- High Strength.

Pack contains:

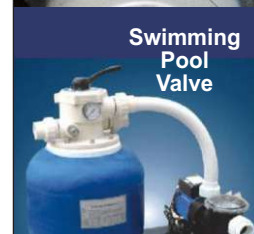

1 x Adhesive 1 x White Filling Powder & 1 x Black Filling Powder

SOME SUGGESTED USES: (TOO MANY TO MENTION)

- Car bumpers.
- Damaged wheel caps.
- Motor cycle fairings.
- Electrical switches.
- Damaged carburetor.
- Radiators overflow.
- Pool pump valves.

PACKAGING

Dispenser of 10 x Repair Kits

Cat. no. 98008
(Dispenser of 20x(4x1g) Packs)

PRATLEY SUPER GLUE / SINGLE USE

NEW Ideal for quick and easy small repairs. The convenient single shot tube ensures fresh super glue and no worries about dried up nozzles. The sealed tube with nozzle pierceable membrane ensures no leakage and is ideal for carrying around in a handbag for emergency repairs.

PACKAGING:

Dispenser of 20 x (4x1g) bubble packs

PRATLEY SUPER GLUE 3g

Supplied with a unique self piercing long nozzle with safety collar, Pratley Superglue is an advanced high performance cyanoacrylate. It has excellent adhesion to most well mated substrates and rubber (not silicone rubber) in particular. It bonds in a few seconds but takes a few minutes to reach full strength.

Cat. no. 98007
(Dispenser of 20 Packs)

SOME SUGGESTED USES:

- Allow it to "wick" into cracked metal or plastic items.
- Stick rubber 'O' rings, gaskets, in seconds.
- Almost any small, delicate and well matched surfaces requiring virtually instant repair.

PACKAGING:

Dispenser of 20 x bubble packs each containing a 3g bottle.

2 alternatives:

Dispenser of 20 individual 3g bottles (Display Pack)

Cat. no. 98003
(Dispenser of 20 Bottles)

Cat. no. 98009
(Dispenser of 20x3g Packs)

PRATLEY SUPER GLUE / GEL

NEW PRATLEY SUPERGLUE GEL is an ultra-fast curing, high performance "Superglue" adhesive gel. It has non-drip and gap filling properties that make it ideal for repairs on vertical or uneven surfaces. It also performs well on porous substrates due to its "gel-like" consistency. It is supplied in leak proof tubes with a diaphragm and self piercing nozzle.

PACKAGING:

Dispenser of 20 x 3g bubble packs

SEALANTS

www.pratleyadhesives.com

Cat. no. 93009
(Dispenser of 12)

Cat. no.
93007

Cat. no. 93002
(Dispenser of 20)

PRATLEY FLEXISEAL (White)

An acrylic based sealant specially developed in our laboratories for superior elasticity and adhesion. It has excellent adhesive properties and is very elastic when set.

It can be washed off with water before it cures. This facilitates the rectification of application errors or messy jobs. It can also be smoothed with a wet finger or putty spatula.

SOME SUGGESTED USES:

- Repair cracks in house wall, allow to dry and paint over.
- Use as a sealant around bath tub.
- Use as a tile adhesive.
- Use to stick polystyrene insulation to underside of factory I.B.R roof.
- Tack weld and then seal metal parts with Flexiseal instead of seal welding.

PACKAGING: 3 alternatives:

- Dispenser of 20 x 125g hanging tubes.
- Dispenser of 12 x 400g cartridges plus nozzles (white only).
- 500ml Bucket for industrial use (white only).

- Seal leaking I.B.R. roof or roof bolts.
- Seal leaking gutters.
- Use in concrete expansion joints.
- Seal window frames or glazing.
- Seal joints in prefabricated houses and paint over.
- Seal around electrical wires where they pass through grommet holes.
- Patch up nail holes in walls.

PRATLEY SILICONE SEALANT (Clear)

This exceptionally high quality (acetoxo curing) silicone sealant is specifically formulated as a multi-purpose D.I.Y. and industrial silicone. Unlike other silicones on the market it has no diluents. It cures by reacting with atmospheric moisture and has exceptional elongation and toughness. Silicones have limited shelf life of 12 months. This is entirely dependent upon storage temperature and ambient humidity.

PACKAGING:

Dispensers of 12 x 280ml cartridges plus nozzles

Cat. no. 93510
(Dispenser of 12)

PRATLOK ANAEROBICS

See www.pratleyadhesives.com for more technical information.

Grade 6-10

PACKAGING:
Dispenser of
4 x 50g bottles

PRATLOK 50g INDUSTRIAL RANGE

Selecting the correct grade for the job is the secret of success and Pratlok makes this very easy.

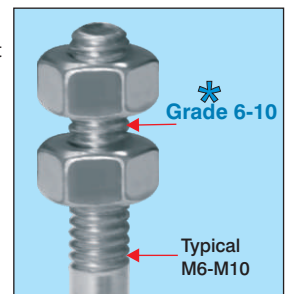

- * "Grade 6-10" for example is for threads in the 6 to 10mm size range and so on. Both the bottle caps and the adhesives are colour coded - the adhesives are also U.V. fluorescent to facilitate industrial inspection. Made to international Mil. and ISO specifications.

EIGHT GRADES OF PRATLOK ARE AVAILABLE:

Cap Col	Pratlok Grade	Cat. No. (For Dispenser of 4 Bottles)
	Screw Lock Grade 0-6	92050
	Screw Lock Grade 6-10 *	92051
	Screw Lock Grade 10-20	92052
	Screw Lock Grade 20+	92053
	Pratlok Grade PEN (Penetrating)	92054
	Pratlok Grade BRG (Bearing)	92055
	Pratlok Grade HYD (Hydraulic)	92056
	Pratlok Grade H Temp (High Temperature)	92057

SOME SUGGESTED USES:

- Use to eliminate loosening of fasteners such as screws, bolts, nuts and studs.
- Prevent slip or movement between press- or slip-fitted parts such as shafts, bearings and drives.
- Pratlok also seals the joint and prevents corrosion.

Grade 6-10
Cat. no. 92070
(Dispenser of 20 Packs)

Grade 10-20
Cat. no. 92081
(Dispenser of 20 Packs)

Grade "BRG"

(Dispenser of 20 Packs)

PRATLOK 10g BLISTER CARD RANGE

Grade 6-10 / Grade 10-20 and Grade "BRG" supplied in 10g bottles for the hobbyist and DIY enthusiast.

PACKAGING
Dispenser of 20 x 10g bubble packs.

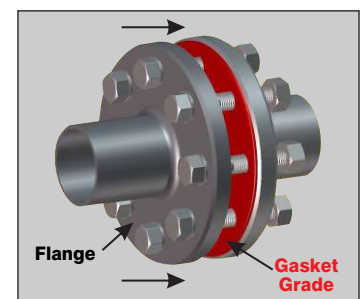

Cat. no. 92090
(Dispenser of 4 Tubes)

GASKET GRADE PRATLOK

Pratlok Gasket Grade is a rigid curing, seal and gasket maker which is **Silicone Free**. Ideal for: Pipe Flanges, Engine Sumps, Gear Boxes, Water Pumps & Similar.

PACKAGING:

Dispenser of 4 x 50ml tubes

INDUSTRIAL PRODUCTS

www.pratleyadhesives.com

PRATLEY INDUSTRIAL PUTTY

Cat. no. 80205 (White)

Cat. no. 81212 (Black)

PACKAGING: 2kg Dispenser
(10 x 200g pairs of sticks)

The composition of this epoxy based product is identical to Pratley Standard Setting Putty. The Putty stick size and packaging however is larger. Industrial Putty is available in either black or white.

PRATLEY INDUSTRIAL WHITE & CLEAR ADHESIVE

These are standard (slow setting) versions of Pratley Quickset White/Clear

Cat. no. 82222 (White)

Cat. no. 83229 (Clear)

PACKAGING:

Each dispenser contains 2 x 250ml jars.

Cat. no. 89247

PRATLEY PRATLEMIX

A very high strength epoxy based industrial adhesive and repair medium. Formulated to set hard yet be tough enough to take impact loads. A standard (slow) setting product with wide industrial applications.

PACKAGING: Each dispenser contains 2 x 250ml Jars.

SOME SUGGESTED USES:

- Mix with sand and use to patch chipped concrete corners or stairs.
- Soak into a bandage or cloth and wrap around broken joints.
- Cover chipped or worn floors.
- Cover metal parts to protect against corrosion.
- Use as an abrasion resistant lining. (Can also be mixed with a wear resisting medium such as corundum or alumina for this application).

Cat. no. 98004
(Dispenser of 20)

PRATLEY SUPERGLUE 20g

PACKAGING:
Dispenser of 20 x 20g bottles.

A multi purpose high performance cyanoacrylate of the very highest quality with an unique self piercing long nozzle and safety collar. Modified to meet the stringent requirements of industry. The larger 20 gram bottles facilitate its use in manufacturing. The product displays superior adhesive strength and will form a bond in a few seconds. Full strength will be reached in a few minutes.

Cat. no. 98031
10l Bucket

Cat. no. 98030
5l Bucket

Cat. no. 98032
8 x 1l Buckets

PRATLEY PLASTER-GRIP PRIMER

This product is primarily for the preparation of surfaces prior to plastering or painting. Its unique ability to make plaster stick, now makes it possible to plaster smooth steel, smooth concrete, almost anything, even glass! It is ideal for use with either Pratliperl ultra lightweight fireproof plaster or conventional plaster. Pratley Plaster Grip Primer can also be mixed into concrete (Pratliperl or conventional) to improve the toughness, impermeability and stickyness. Additionally, it can be very effectively used for sealing surfaces prior to painting.

SOME SUGGESTED USES:

- Bond plaster to smooth wall.
- Seal wall prior to painting & save paint.

SPECIAL PERFORMANCE ADHESIVES

Cat. no. 83230

PRATLEY SP001

A medium curing speed adhesive, with the following Special Performance properties:

- Exceptional resistance to diesel, oil and water.
- Excellent resistance to chemicals and acids.
- Adheres well to most substrates.

PACKAGING: Dispenser of 2 x 250ml Jars.

SOME SUGGESTED USES:

- Plumbing fittings.
- Repair of chemical plant components.
- Repair of mining equipment.
- Repair of lead acid battery casings.
- Repair of swimming pool plumbing components.
- Excellent on fibreglass.

Cat. no. 83232
(Dispenser of 10 Packs)

PRATLEY SP020

A sophisticated acrylic suited to demanding industrial applications. Special Performance Properties include: high peel strength, fast cure, toughness, impact resistance, bonds to most plastics, bonds to mildly oily surfaces, easy application and malproportioning tolerance.

PACKAGING: Dispenser of 10 x 50ml packs.

SOME SUGGESTED USES:

- Precision assembly of sheet metal or sheet aluminium.
- Assemble panels and reinforcement frames.
- Replace spot welding with bonded bead line.
- Replace riveted parts with bonded bead line.
- Bond magnets to loudspeakers, copiers and motors.
- Assemble fibreglass boat parts.

Cat. no. 83233

PRATLEY SP003 Marine Adhesive

A specially formulated epoxy for marine use including salt water. A slow to medium setting adhesive. Can be painted over with marine paint.

PACKAGING: Dispenser of 2 x 250ml tubes.

SOME SUGGESTED USES:

- Repair pitted aluminium boat hulls.
- Repair pitted steel boat hulls.
- Repair damaged car and caravan parts.
- Repair cracks in toilets, basins and baths.
- Repair floor tiles and flooring.
- Seal gutters, pipes and roofs.

ADDITIONAL PRODUCTS

www.pratleyadhesives.com

Cat. no. 96000

PRATLIMOLD

Pratlilmold is a unique high strength dimensionally stable compound, which can be machined, carved, sawn, drilled and has many uses. It can be cast in very thick sections, is self-lubricating during machining and is completely isotropic. Can be used for rapid prototype machining.

PRATLIMOLD PROPERTIES:

- Colour - Dark Yellow
- Once set it can be sawn, filed, carved, drilled, machined or sanded.
- Accepts paint (after surface grease or release agent has been removed with a solvent like dichloromethane).
- Can be glued with Pratley WONDAFIX.
- Good electrical insulation.
- High resistance to oil, water and many common chemicals.

PACKAGING: Shrink wrap dispenser containing 1 x 1.2kg kit. (3 cans)

Machining Bushes

SOME SUGGESTED USES:

- Excellent as a C.N.C machine program proving material (can be machined at very high speed to produce good surface finish and little tool wear).
- Cast rods for machining **bushes**.
- Material for artistic carvings which then can be bronze plated.
- Make patterns for castings.
- Make models or **prototypes**.
- Invaluable in the workshop.

Machining Prototypes

Cat. no. 92062
(Dispenser of 12)

PRATLEY SAFETY CLEANER Non-flammable

A non-flammable cleaner for switches, relay contacts, commutators, condensers, rheostat wipers and precision mechanical parts. Also cleans oily parts prior to Pratlok bonding. Leaves no residue or film.

PACKAGING:
Dispenser of 12 aerosol tins

PRATLEY CLINOSORB (ZEOLITE)

A powerful ammonia, heavy metal and pollution absorber with high cation exchange properties. Ideal media for fish tank water filter and fish tank gravel beds.

PACKAGING:
Jar containing 600ml

PRATLEY STIK 'N CLIP

Simply stick the clips onto a surface and then clip in household cables, cords and wires to render your home, workshop or office tidy and safe. Pratley Stik 'n Clip is also extremely useful for mounting pens, pencils and tools in handy places.

Whether you require a handy pen at your computer, a neat and tidy electrical lead behind your T.V. or a convenient home for your workshop screwdrivers, Stik 'n Clip will do the job.

PACKAGING:
Dispenser of 20 bubble packs. Each pack contains 5 clips. Available in 3mm, 6mm & 8mm sizes.

Clip in household cables

RUBBER & PVC TAPE / PRICES

Cat. no. 91005
Rubber Tape
(Dispenser of 20 Packs)

PVC Electrical Tape
(Dispenser of 20 Rolls)

PRATLEY RUBBER TAPE is "self fusing". It fuses (amalgamates) to itself once wrapped and has 1001 uses. The self fusing property prevents it from coming loose and renders it useful for fixing low pressure leaking pipes, making handle grips and the like. It is also a high voltage electrical insulator.

GRIP FOR RACQUET

PRATLEY PVC ELECTRICAL TAPE & EARTH MARKING TAPE is super high quality, durable and highly elastic. It has excellent peel and tensile strengths, is weather resistant and suitable for use over wide temperature range. Packed in useful re-usable containers.

Earth Marking Tape

KRAFTEX RANGE

kraftex.co.za

PRICE LIST

Superior craft products for decoupage, ultra gloss finishes, decorative crack effects and antique crack effects on a variety of surfaces.

PRATLIGLO
TABLE TOP

Cat. nr. 96102
(Dispenser of
4 x 200ml units)

PRATLIGLO
WALL CLOCK
& CHESS SET

KRAFTEX PRATLIGLO
'Kraftex' Pratliglo is a self-leveling, pour-on coating for trays, table tops, plaques, decoupage, clocks and figurines. It sets to a high build ultra-gloss finish which is absolutely breathtaking. This non-shrinking, impact resistant coating is also cigarette-burn and alcohol resistant.

KRAFTEX STARTER KIT

The 'Kraftex' Starter Kit is an ideal starting point for beginners, and everything you need to complete a breathtaking tray.

Cat. no.
96106

AN IDEAL GIFT

KRAFTEX DECOPODGE SEALANT

'Kraftex' Decopodge Sealant is a 'podge' product especially useful for sealing newspaper cuttings, porous substrates, decoupage, photographs and the like. Sealing prevents bubble formation and it prevents newspaper cuttings from becoming transparent after pouring 'Kraftex' Pratliglo highgloss coating. 'Kraftex' Decopodge Sealant is also a useful adhesive for sticking down photographs and cuttings prior to sealing and coating.

Cat. no. 96104
(Dispenser of 4 x Jars)
Cat. no. 96115 (1 x 1litre)

Cat. no. 96113
(Dispenser of 4 x Jars)

KRAFTEX VARNISH

'Kraftex' Varnish is a mineral-based, multi-purpose varnish. It will bring out the rich grain and lustre of quality wood. It may also be used to coat the sides of any decoupage project - to produce a glossy finish.

KRAFTEX SEAL COAT

'Kraftex' Seal Coat is a quick-drying, mineral-based transparent sealant/varnish which is easy to apply and virtually odourless. It is intended for use on decoupage and other general craft projects - especially for the coating of difficult objects such as ostrich eggs. It is also ideal for use in conjunction with 'Kraftex' Creative Cracks and 'Kraftex' Antique Cracks.

"KRAFTEX CREATIVE CRACKS"

'Kraftex' Creative Cracks will enable you to effortlessly and quickly create a unique decorative 'crack effect' on a variety of painted craft, hobby, and artistic objects, even large surfaces like doors and walls.

KRAFTEX ANTIQUE CRACKS

'Kraftex' Antique Cracks will enable you to effortlessly and quickly create a 'unique' effect on a variety of painted craft, hobby and artistic objects, even large objects like doors and walls.

This product consists of a two-part waterbased system. You apply a Base Coat for either Large or Small Cracks and then apply a Standard Top Coat, to achieve the desired effect.
